

20th International RIVER SYMPOSIUM

EXCELLENCE – COLLABORATION – INTEGRATION

18-20 Sep 2017

Brisbane Convention and Exhibition Centre
Brisbane, Australia

A decade on from the hugely successful 10th International *Riversymposium* and Environmental Flows Conference, International RiverFoundation is inviting water experts to Brisbane to reignite this conversation, with a focus on exploring the progress made, and challenges faced, since the release of the 2007 Brisbane Declaration and Global Action Agenda.

The 20th International *Riversymposium* is an opportunity for those involved in all aspects of sustainable river basin management globally to share their knowledge, learn from others and collaborate – all while enjoying Australia's stunning river city.

Abstract submission opens early 2017
