

RIVERS ON FIRE

The journey from recovery to resilience

What is the Rivers on Fire event series?

As Australia begins to recover from a series of devastating bushfires, the International RiverFoundation is planning a series of events with an aim to understand the impacts, raise awareness, and create a call for action to address the effects of fire on waterways.

Why Partner with us?

We would like to invite you to become a partner for the inaugural Rivers on Fire event series, giving you the opportunity to:

- Showcase your work and demonstrate your commitment to addressing the complex challenges that our rivers, and communities are facing globally in the face of these devastating bushfires;
- Gain local, regional, and national exposure;
- Engage with hundreds of influential and engaged participants, representing all sectors involved in water, fire and river basin management; and
- Build relationships, share knowledge, collaborate and obtain leads for future partnerships.

AussieArk

All profits from the Rivers on Fire event series will be donated to Aussie Ark, a not for profit organisation committed to changing the trajectory of declining animal species in Australia.

Rivers on Fire Event Series

RIVERS ON FIRE BREAKFAST

18 MARCH | BRISBANE

This event has an expected audience of over 100 participants, coming from NGO's, academia, industry and government. The breakfast will be held at Brisbane City Hall and will be an open forum. Our two keynote speakers at the breakfast are:

- Dr Fran Sheldon - How will our rivers cope, and
- Bradley Moggridge - Learning from our Indigenous communities.

RIVERS ON FIRE FORUM

4-5 JUNE | PORT MACQUARIE

An opportunity to share knowledge and learn. The forum will have plenary and breakout sessions with topics derived from the Think Tank. The outcome of the forum would be to draft a synthesis document for the Think Tank, resulting in a report that can be used to drive policy change. 150-350 delegates are expected.

THINK TANK

LATE JUNE | ALBURY/ WAGGA WAGGA

A collaboration of experts to discuss all aspects of catchment management in the face of fire in the second week of April. The outcome of the Think Tank will be to revise IRF's conceptual diagram and expand on the synthesis document from the Forum.
